

14th Czech – Slovak - Polish Paleontological Conference
and
9th Micropalaeontological Workshop MIKRO 2013

PROGRAM KONFERENCJI

Obrady odbędą się w budynku A0 Akademii Górniczo-Hutniczej w Krakowie (Aleja Mickiewicza 30), w sali 213 na II piętrze.

13.11.2013 – *The Grzybowski Foundation Annual Board Meeting* oraz spotkanie *The International Working Group on Foraminiferal Classification*.

14.11.2013:

8:30 – 10:00 – Rejestracja uczestników

10:00 – 10:40 – Otwarcie konferencji

10:40 – 12:00 – Sesja referatowa: Paleontologiczne aspekty paleozoiku – część I

Przewodnicząca: Ewa Olempska

10:40 – Tomáš Kumpan, Jiří Kalvoda, Štěpán Rak: Biostratigraphy of the Lower/Middle Tournaisian (Mississippian) limestones in the Moravian Karst: preliminary results.

11:00 – Lukáš Laibl, Oldřich Fatka, Václav Vokáč, Michal Szabad: *Ellipsocephalus hoffi*: the well-known trilobite with unknown ontogeny?

11:20 – Karolína Lajblová: Ostracods from the top of the Králův Dvůr Formation (latest Katian).

11:40 – Milan Libertín, Jiří Kvaček: Genus *Cooksonia* from Wenlock of the Bohemian Massif.

12:00 – 12:20 – Przerwa

12:20 – 13:40 – Sesja referatowa: Paleontologiczne aspekty paleozoiku – część II

Przewodniczący: Michael A. Kaminski

12:20 – Martina Nohejlová, Oldřich Fatka: Ontogeny and morphology of the eocrinoid genus *Akadocrinus* from Cambrian of the Barrandian area, Czech Republic.

12:40 – Ewa Olempska: The Palaeozoic Ctenostomata – are they true bryozoans?

13:00 – Vojtěch Turek, Štěpán Manda: Early ontogeny of the Silurian Tarphycerid *Ophioceras* (Nautiloidea).

13:20 – Tomáš Weiner, Jiří Kalvoda: Remarks on the *Annulata* events in the southern part of the Moravian Karst (middle Famennian, Czech Republic).

13:40 – 14:40 – Lunch

14:40 – 16:00 – Sesja referatowa: Paleontologiczne aspekty mezozoiku – część I

Przewodnicząca: Maria Aleksandra Bitner

14:40 – Sofia Bakayeva: The Late Cretaceous Gastropods From Volyno-Podilya (Western Ukraine) – diversity and distribution.

15:00 – Daniela Boorová, Ivan Filo: Results of the microbiostratigraphical, microfacial and lithological research of the Párnica Formation at Kral'ovany locality (Křížna nappe, Western Carpathians).

15:20 – Zuzana Heřmanová, Jiří Kvaček, Jan Dudák, František Krejčí, Jan Žemlička, Jan Jakůbek: New record of genus *Caryanthus* from the Cretaceous of South Bohemia (Czech Republic).

15:40 – Małgorzata Jugowiec-Nazarkiewicz, Andrzej Szydło: The Cretaceous-Paleogene boundary in carbonate and siliceous clastic deposits of the Silesian-Subsilesian Zone based on calcareous nannoplankton and foraminifers: examples from the Polish Western Carpathians.

16:00 – 16:20 – Przerwa

16:20 – 17:40 – Sesja referatowa: Paleontologiczne aspekty mezozoiku – część II

Przewodnicząca: Daniela Boorová

16:20 – Martina Kočová Veselská: A lobster genus *Paraclytia* Fritsch, 1887 (Crustacea: Decapoda: Nephropidae) from the Lower/Middle Turonian of the Bohemian Cretaceous Basin, Czech Republic

16:40 – Krystian Koniecznyński: Upper Jurassic crinoids from sponge biofacies.

17:00 – Justyna Kowal-Kasprzyk, Barbara Olszewska: Stratigraphy of the Jurassic and Cretaceous exotic limestones from the Silesian and Sub-Silesian Nappe of the Polish Outer Carpathians – preliminary results of micropaleontological study.

17:20 – Jiří Kvaček, Bernard Gomez, Josep Marmi, Mihai Popa: Cretaceous monocotyledon megafossils from Europe.

17:40 – 18:30 – Sesja posterowa (poza sesją postery można oglądać podczas przerw w obradach)

18:30 – 21:00 – Uroczysta kolacja

15.11.2013

9:00 – 10:20 – Sesja referatowa: Paleontologiczne aspekty mezozoiku – część III

Przewodniczący: Zdenek Vašíček

9:00 – Tomáš Kočí, Martina Kočová Veselská, Michal Kubajko, Jan Sklenář: The revision of Cirripeds (Thoracica, Crustacea) from Bohemian Cretaceous Basin.

9:20 – Khatuna Mikadze: The Turonian-Coniacian boundary in Western Georgia (on the basis of planktonic foraminifera).

9:40 – Hedvika Poukarová, Miroslav Bubík: Sedimentology and faunal succession of the Upper Turonian – Lower Coniacian in occasional outcrops at Opatov near Svitavy (Bohemian Cretaceous Basin).

10:00 – Jan Sklenář, Boris Ekrt, Zuzana Gazdová, Valéria Vaškaninová, Petr Kotlík, Jiří Sejkora, Michal Novák, Jana Říhová Ambrožová, Peter Kolesar, Jiří Kvaček, Kamil Zágoršek, Milan Libertín, Ivana Jebavá, Radana Mlíková, Jiří Litochleb, Michal Kubajko, Eva Kadlecová, Lenka Váchová, Vladimír Šrein: New perspectives in preventive and remedial conservation of fossils containing Fe disulphides.

10:20 – 10:40 – Przerwa

10:40 – 11:40 – Sesja referatowa: Paleontologiczne aspekty mezozoiku – część IV

Przewodniczący: Miroslav Bubík

10:40 – Zdenek Vašíček: New findings on Lower Cretaceous ribbed ammonites of Štramberk Limestone from the Kotouč Quarry near Štramberk (Silesian Unit, Outer Western Carpathians).

11:00 – Radek Vodrážka, Lenka Hradecká, Jiří Kvaček, Daniel Nývlt, Jakub Sakala, Lilian Švábenická: Some results of palaeontological studies in the Cretaceous of the northern James Ross Island (Antarctica).

11:20 – Katarína Žecová: New biostratigraphic results from the borehole VTO -14 Nová Vieska pri Bodrogu (Eastern Slovakia).

11:40 – 12:00 – Przerwa

12:00 – 13:20 – Sesja referatowa: Paleontologiczne aspekty kenozoiku – część I

Przewodnicząca: Danuta Peryt

12:00 – Maria Aleksandra Bitner, Arnold Müller: New brachiopod fauna from the Silberberg Formation (Late Eocene to Early Oligocene) of Atzendorf, Central Germany.

12:20 – Miroslav Bubík: New find of testate amoebae in the Miocene of Moravia (Czech Republic).

12:40 – Katarína Holcová, Juraj Hrabovský, Slavomír Nehyba, Šárka Hladilová, Nela Doláková, Attila Demeny: The Langhian (Early Badenian) carbonate production event in the Moravian part of the Carpathian Foredeep (central Paratethys): multiproxy record.

13:00 – Joanna Pszonka, Marek Wendorff, Katarína Žecová: Analysis of carbonate nannoplankton from the Cergowa Beds (Oligocene), Polish and Slovak Flysch Carpathians.

13:20 – 14:20 – Lunch

14:20 – 15:20 – Sesja referatowa: Paleontologiczne aspekty kenozoiku – część II

Przewodniczące: Marta Bąk, Anna Waškowska

14:20 - Danuta Peryt, Marek Jasionowski: Environmental changes at the Badenian/Sarmatian (Middle Miocene) transition inferred from foraminifers in Central Paratethys (Zhabiak, W Ukraine).

14:40 – Andrej Ruman, Natália Hudáčková, Jana Chudíková Hlavatá, Anna Klimovičová: Middle Badenian (Miocene) shallow water agglutinated foraminifera.

15:00 – Kamil Zágoršek, Laís V. Ramalho, Vladimir A. Tavora: New Miocene Bryozoa from Brazil - possible paleogeographical connection to Paratethys.

15:20 – Zakończenie konferencji

Spis posterów:

1. Aubrechtová M., Manda Š.: Radiation and evolution of earliest pelagic orthocerid cephalopods: genus *Bactroceras* Holm, 1898 from the Ordovician of Bohemia.
2. Bąk M., Bąk K., Górny Z., Stożek B.: Fe-Mn related bacterial communities from the Cenomanian deep-water settings of the Silesian Basin, Outer Carpathians.
3. Bąk M., Bąk K., Michalik M.: Diatoms occurrence in the Upper Cenomanian–Lower Turonian Anoxic Event deposits from the Outer Carpathians.
4. Bitner M. A., Zágoršek K., Halásová E., Jamrich M.: First Early Sarmatian brachiopods and accompanying fauna from the Central Paratethys.
5. Bitner M. A., Zágoršek K., Hladilová Š.: Middle Miocene (Badenian) brachiopods from the Carpathian Foredeep in Moravia (Czech Republic) – rediscovered.
6. Cieszkowski M., Waškowska A.: Stratigraphic position of the olistostome in the Carpathian flysch in Lipie at Rożnów Lake, Silesian Nappe, Outer Carpathians, Poland.
7. Ciurej A.: Imaging interiors of fossilized coccospheres: a non-destructive technique.
8. Damaziak R.: Animal inclusions in Baltic amber from Lithuania.
9. Damaziak R.: Benthic foraminiferal assemblages around the Maastrichtian-Paleocene boundary of the Skole Unit (Polish Outer Carpathians).
10. Dubicka Z., Peryt D.: The significance of benthic foraminifera in deciphering the Santonian stratigraphy of the European epicontinental sea sediments.
11. Dulemba P.: Micropalaeontological analysis of the Lower Carboniferous deposits from the Raclawka Valley, Cracow Upland.
12. Dybkowska K.: *Cuneus minutus* (Marsson) - a periodically highly dominant component of the Late Maastrichtian foraminiferal assemblages from the Lublin Upland (Eastern Poland).
13. Fekete K.: Lithology of Lower Cretaceous "Urgonian" Complexes in the Manín Unit and the Pienniny Klippen Belt (Western Carpathians).
14. Jiří Frank, Jiří Kvaček: Biodiversity Heritage Library for Europe - past, present and future.

15. Garecka M.: The genus *Helicosphaera* in the sediments of the Polish Flysch Carpathians.
16. Garecka M., Olszewska B.: Correlation of the Middle Miocene deposits in SE Poland and western Ukraine based on foraminifera and calcareous nannoplankton.
17. Gedl P., Józsa Š.: Middle Jurassic foraminifera and organic-walled dinoflagellate cysts from the dark shale of the Szlachtowa and Skrzypny Shale formations between Jarabina and Litmanová, Pieniny Klippen Belt, Slovakia.
18. Hrbek J.: Preliminary results of the Jurassic ammonite research in the Northern Bohemia.
19. Hudáčková N., Halášová E., Kováčová M., Rybár S., Kováč M.: High resolution study of the holotype locality of the CPN8 Zone (*Globigerina druryi* – *Globigerina decoraperta*).
20. Kaim A., Skupien P., Jenkins R. G.: Fauna of the Lower Cretaceous hydrocarbon seep locality from Czech Carpathians.
21. Kaminski M. A., Kender S., Dogan A. U.: A new Pliocene agglutinated benthic foraminifer from the southern Bering Sea with a perforated wall structure.
22. Kumpan T.: Some Latest Famennian and Early Tournaisian ophiuroids and holothuroids (Echinodermata) from the Moravian Karst.
23. Nowicki J.: Application of morphometric techniques in describing allometry – a case study based on the Cambrian trilobite *Paradoxides polonicus* Orłowski, 1965 from the Holy Cross Mountains, Poland.
24. Pawłowski D.: The significance of Cladocera remains in sediments of valley mires.
25. Pecharová M., Li Y., Ren D., Prokop J.: New palaeopteran insects from Upper Carboniferous of Ningxia in northern China allow assessment of intraspecific wing variability (Insecta: Megaseoptera)
26. Pilarz M., Olejniczak P.: New data on age of oyster limestones – Wola Justowska outcrop (Miocene, Kraków area, Carpathian Foredeep, Poland).
27. Příkryl T., Krzemiński W., Kania I.: “Non-adult” fish fauna of the Hermanowa locality (Oligocene; Outer Carpathian; Poland) – preliminary review.
28. Ruman A., Hudáčková N., Chudíková Hlavatá J., Koubová I., Klimovičová A.: Comparison of the deep-water and shallow-water Middle Badenian (Miocene) foraminiferal associations – taphonomic analysis.

29. Săsăran L., Bălc R., Săsăran E.: Biostratigraphy of the Late Cretaceous shallow-marine deposits based on the rudists and calcareous nannofossils from Misesa Hill (Roşia basin), Apuseni Mountains, Romania.
30. Slavík L., Valenzuela-Ríos J.I., Hušková A., Calvo H., Liao J.-C., Koptíková L.: Hires correlation and dating of Mid-Palaeozoic sedimentary sequences of Peri-Gondwana using integrated biostratigraphy and chemo-physical methods - an insight to the Lochkovian.
31. Strzeboński P., Kowal-Kasprzyk J., Olszewska B.: Debrites of the Istebna Beds with exotic limestones from the Beskid Mały Mountains (Polish Outer Carpathians).
32. Svobodová A.: Calcareous nanofossils of the Jurassic-Cretaceous boundary interval in the St. Bertrand (south-eastern France).
33. Szczepaniak K.: Interactions of organisms in fossil resins.
34. Uhlířová H., Ivanov M.: Application of thin sections of tooth roots in domestic animals.
35. Vodička J., Manda Š.: Chitinozoa across the latest Ludlow kozlowskii/Lau events in the Prague Basin, Czech Republic.
36. Waškowska A.: A new agglutinated foraminifera of the genus *Bulbobaculites* from the Paleogene of Outer Carpathians (Silesian Nappe, Poland) – preliminary results.
37. Waškowska A., Golonka J.: Foraminiferal assemblages of Beloveža Formation in Klimkówka Lake area (Magura Nappe, Outer Carpathians, Poland).

14th Czech – Slovak - Polish Paleontological Conference
and
9th Micropalaeontological Workshop MIKRO 2013

CONFERENCE PROGRAM

Conference will be held in the A0 building of the AGH University of Science and Technology (Mickiewicza Av. 30), in the room no 213 on the II floor.

13.11.2013 – *The Grzybowski Foundation Annual Board Meeting* and meeting of *The International Working Group on Foraminiferal Classification*.

14.11.2013:

8:30 – 10:00 – Registration

10:00 – 10:40 – Opening ceremony

10:40 – 12:00 – Session: Paleontological aspects of the Paleozoic – part I

Chairperson: Ewa Olempska

10:40 – Tomáš Kumpan, Jiří Kalvoda, Štěpán Rak: Biostratigraphy of the Lower/Middle Tournaisian (Mississippian) limestones in the Moravian Karst: preliminary results.

11:00 – Lukáš Laibl, Oldřich Fatka, Václav Vokáč, Michal Szabad: *Ellipsocephalus hoffi*: the well known trilobite with unknown ontogeny?

11:20 – Karolína Lajblová: Ostracods from the top of the Králův Dvůr Formation (latest Katian).

11:40 – Milan Libertín, Jiří Kvaček: Genus *Cooksonia* from Wenlock of the Bohemian Massif.

12:00 – 12:20 – Coffee break

12:20 – 13:40 – Session: Paleontological aspects of the Paleozoic – part II

Chairperson: Michael A. Kaminski

12:20 – Martina Nohejlová, Oldřich Fatka: Ontogeny and morphology of the eocrinoid genus *Akadocrinus* from Cambrian of the Barrandian area, Czech Republic.

12:40 – Ewa Olempska: The Palaeozoic Ctenostomata – are they true bryozoans?

13:00 – Vojtěch Turek, Štěpán Manda: Early ontogeny of the Silurian Tarphycerid *Ophioceras* (Nautiloidea).

13:20 – Tomáš Weiner, Jiří Kalvoda: Remarks on the *Annulata* events in the southern part of the Moravian Karst (middle Famennian, Czech Republic).

13:40-14:40 – Lunch

14:40 – 16:00 – Session: Paleontological aspects of the Mesozoic – part I

Chairperson: Maria Aleksandra Bitner

14:40 – Sofia Bakayeva: The Late Cretaceous gastropods from Volyno-Podilya (Western Ukraine) – diversity and distribution.

15:00 – Daniela Boorová, Ivan Filo: Results of the microbiostratigraphical, microfacial and lithological research of the Párnica Formation at Kral'ovany locality (Křížna nappe, Western Carpathians).

15:20 – Zuzana Heřmanová, Jiří Kvaček, Jan Dudák, František Krejčí, Jan Žemlička, Jan Jakůbek: New record of genus *Caryanthus* from the Cretaceous of South Bohemia (Czech Republic).

15:40 – Małgorzata Jugowiec-Nazarkiewicz, Andrzej Szydło: The Cretaceous-Paleogene boundary in carbonate and siliceous clastic deposits of the Silesian-Subsilesian Zone based on calcareous nannoplankton and foraminifers: examples from the Polish Western Carpathians.

16:00 – 16:20 – Coffee break

16:20 – 17:40 – Session: Paleontological aspects of the Mesozoic – part II

Chairperson: Daniela Boorová

16:20 – Martina Kočová Veselská: A lobster genus *Paraclytia* Fritsch, 1887 (Crustacea: Decapoda: Nephropidae) from the Lower/Middle Turonian of the Bohemian Cretaceous Basin, Czech Republic.

16:40 – Krystian Koniecznyński: Upper Jurassic crinoids from sponge biofacies.

17:00 – Justyna Kowal-Kasprzyk, Barbara Olszewska: Stratigraphy of the Jurassic and Cretaceous exotic limestones from the Silesian and Sub-Silesian Nappe of the Polish Outer Carpathians – preliminary results of micropaleontological study.

17:20 – Jiří Kvaček, Bernard Gomez, Josep Marmi, Mihai Popa: Cretaceous monocotyledon megafossils from Europe.

17:40 – 18:30 – Poster session (posters will be placed around the conference room)

18:30 – 21:00 – Dinner

15.11.2013

9:00 – 10:20 – Session: Paleontological aspects of the Mesozoic – part III

Chairperson: Zdenek Vašíček

9:00 – Tomáš Kočí, Martina Kočová Veselská, Michal Kubajko, Jan Sklenář: The revision of Cirripeds (Thoracica, Crustacea) from Bohemian Cretaceous Basin.

9:20 – Khatuna Mikadze: The Turonian-Coniacian boundary in Western Georgia (on the basis of planktonic foraminifera).

9:40 – Hedvika Poukarová, Miroslav Bubík: Sedimentology and faunal succession of the Upper Turonian – Lower Coniacian in occasional outcrops at Opatov near Svitavy (Bohemian Cretaceous Basin).

10:00 – Jan Sklenář, Boris Ekrt, Zuzana Gazdová, Valéria Vaškaninová, Petr Kotlík, Jiří Sejkora, Michal Novák, Jana Říhová Ambrožová, Peter Kolesar, Jiří Kvaček, Kamil Zágoršek, Milan Libertín, Ivana Jebavá, Radana Mlíková, Jiří Litochleb, Michal Kubajko, Eva Kadlecová, Lenka Váchová, Vladimír Šrein: New perspectives in preventive and remedial conservation of fossils containing Fe disulphides.

10:20 – 10:40 – Coffee break

10:40 – 11:40 – Session: Paleontological aspects of the Mesozoic – part IV

Chairperson: Miroslav Bubík

10:40 – Zdenek Vašíček: New findings on Lower Cretaceous ribbed ammonites of Štramberk Limestone from the Kotouč Quarry near Štramberk (Silesian Unit, Outer Western Carpathians).

11:00 – Radek Vodrážka, Lenka Hradecká, Jiří Kvaček, Daniel Nývlt, Jakub Sakala, Lilian Švábenická: Some results of palaeontological studies in the Cretaceous of the northern James Ross Island (Antarctica).

11:20 – Katarína Žecová: New biostratigraphic results from the borehole VTO -14 Nová Vieska pri Bodrogu (Eastern Slovakia).

11:40 – 12:00 – Coffee break

12:00 – 13:20 – Session: Paleontological aspects of the Cenozoic – part I

Chairperson: Danuta Peryt

12:00 – Maria Aleksandra Bitner, Arnold Müller: New brachiopod fauna from the Silberberg Formation (Late Eocene to Early Oligocene) of Atzendorf, Central Germany.

12:20 – Miroslav Bubík: New find of testate amoebae in the Miocene of Moravia (Czech Republic).

12:40 – Katarína Holcová, Juraj Hrabovský, Slavomír Nehyba, Šárka Hladilová, Nela Doláková, Attila Demeny: The Langhian (Early Badenian) carbonate production event in the Moravian part of the Carpathian Foredeep (central Paratethys): multiproxy record.

13:00 – Joanna Pszonka, Marek Wendorff, Katarína Žecová: Analysis of carbonate nannoplankton from the Cergowa Beds (Oligocene), Polish and Slovak Flysch Carpathians.

13:20 – 14:20 – Lunch

14:20 – 15:20 – Session: Paleontological aspects of the Cenozoic – part II

Chairpersons: Marta Bąk, Anna Waškowska

14:20 – Danuta Peryt, Marek Jasionowski: Environmental changes at the Badenian/Sarmatian (Middle Miocene) transition inferred from foraminifers in Central Paratethys (Zhabiak, W Ukraine).

14:40 – Andrej Ruman, Natália Hudáčková, Jana Chudíková Hlavatá, Anna Klimovičová: Middle Badenian (Miocene) shallow water agglutinated foraminifera.

15:00 – Kamil Zágoršek, Laís V. Ramalho, Vladimir A. Tavora: New Miocene Bryozoa from Brazil - possible paleogeographical connection to Paratethys.

15:20 – Official closing of the conference

Poster list:

1. Aubrechtová M., Manda Š.: Radiation and evolution of earliest pelagic orthocerid cephalopods: genus *Bactroceras* Holm, 1898 from the Ordovician of Bohemia.
2. Bąk M., Bąk K., Górny Z., Stożek B.: Fe-Mn related bacterial communities from the Cenomanian deep-water settings of the Silesian Basin, Outer Carpathians.
3. Bąk M., Bąk K., Michalik M.: Diatoms occurrence in the Upper Cenomanian–Lower Turonian Anoxic Event deposits from the Outer Carpathians.
4. Bitner M. A., Zágoršek K., Halássová E., Jamrich M.: First Early Sarmatian brachiopods and accompanying fauna from the Central Paratethys.
5. Bitner M. A., Zágoršek K., Hladilová Š.: Middle Miocene (Badenian) brachiopods from the Carpathian Foredeep in Moravia (Czech Republic) – rediscovered.
6. Cieszkowski M., Waškowska A.: Stratigraphic position of the olistostome in the Carpathian flysch in Lipie at Rożnów Lake, Silesian Nappe, Outer Carpathians, Poland.
7. Ciurej A.: Imaging interiors of fossilized coccospheres: a non-destructive technique.
8. Damaziak R.: Animal inclusions in Baltic amber from Lithuania.
9. Damaziak R.: Benthic foraminiferal assemblages around the Maastrichtian-Paleocene boundary of the Skole Unit (Polish Outer Carpathians).
10. Dubicka Z., Peryt D.: The significance of benthic foraminifera in deciphering the Santonian stratigraphy of the European epicontinental sea sediments.
11. Dulemba P.: Micropalaeontological analysis of the Lower Carboniferous deposits from the Raclawka Valley, Cracow Upland.
12. Dybkowska K.: *Cuneus minutus* (Marsson) - a periodically highly dominant component of the Late Maastrichtian foraminiferal assemblages from the Lublin Upland (Eastern Poland).
13. Fekete K.: Lithology of Lower Cretaceous "Urgonian" Complexes in the Manín Unit and the Pienniny Klippen Belt (Western Carpathians).
14. Jiří Frank, Jiří Kvaček: Biodiversity Heritage Library for Europe - past, present and future.

15. Garecka M.: The genus *Helicosphaera* in the sediments of the Polish Flysch Carpathians.
16. Garecka M., Olszewska B.: Correlation of the Middle Miocene deposits in SE Poland and western Ukraine based on foraminifera and calcareous nannoplankton.
17. Gedl P., Józsa Š.: Middle Jurassic foraminifera and organic-walled dinoflagellate cysts from the dark shale of the Szlachtowa and Skrzypny Shale formations between Jarabina and Litmanová, Pieniny Klippen Belt, Slovakia.
18. Hrbek J.: Preliminary results of the Jurassic ammonite research in the Northern Bohemia.
19. Hudáčková N., Halášová E., Kováčová M., Rybár S., Kováč M.: High resolution study of the holotype locality of the CPN8 Zone (*Globigerina druryi* – *Globigerina decoraperta*).
20. Kaim A., Skupien P., Jenkins R. G.: Fauna of the Lower Cretaceous hydrocarbon seep locality from Czech Carpathians.
21. Kaminski M. A., Kender S., Dogan A. U.: A new Pliocene agglutinated benthic foraminifer from the southern Bering Sea with a perforated wall structure.
22. Kumpan T.: Some Latest Famennian and Early Tournaisian ophiuroids and holothuroids (Echinodermata) from the Moravian Karst.
23. Nowicki J.: Application of morphometric techniques in describing allometry – a case study based on the Cambrian trilobite *Paradoxides polonicus* Orłowski, 1965 from the Holy Cross Mountains, Poland.
24. Pawłowski D.: The significance of Cladocera remains in sediments of valley mires.
25. Pecharová M., Li Y., Ren D., Prokop J.: New palaeopteran insects from Upper Carboniferous of Ningxia in northern China allow assessment of intraspecific wing variability (Insecta: Megaseoptera)
26. Pilarz M., Olejniczak P.: New data on age of oyster limestones – Wola Justowska outcrop (Miocene, Kraków area, Carpathian Foredeep, Poland).
27. Příkryl T., Krzemiński W., Kania I.: “Non-adult” fish fauna of the Hermanowa locality (Oligocene; Outer Carpathian; Poland) – preliminary review.
28. Ruman A., Hudáčková N., Chudíková Hlavatá J., Koubová I., Klimovičová A.: Comparison of the deep-water and shallow-water Middle Badenian (Miocene) foraminiferal associations – taphonomic analysis.

29. Săsăran L., Bălc R., Săsăran E.: Biostratigraphy of the Late Cretaceous shallow-marine deposits based on the rudists and calcareous nannofossils from Mîsea Hill (Roşia basin), Apuseni Mountains, Romania.
30. Slavík L., Valenzuela-Ríos J.I., Hušková A., Calvo H., Liao J.-C., Koptíková L.: High-resolution correlation and dating of Mid-Palaeozoic sedimentary sequences of Peri-Gondwana using integrated biostratigraphy and chemo-physical methods - an insight to the Lochkovian.
31. Strzeboński P., Kowal-Kasprzyk J., Olszewska B.: Debrisites of the Istebna Beds with exotic limestones from the Beskid Mały Mountains (Polish Outer Carpathians).
32. Svobodová A.: Calcareous nanofossils of the Jurassic-Cretaceous boundary interval in the St. Bertrand (south-eastern France).
33. Szczepaniak K.: Interactions of organisms in fossil resins.
34. Uhlířová H., Ivanov M.: Application of thin sections of tooth roots in domestic animals.
35. Vodička J., Manda Š.: Chitinozoa across the latest Ludlow *kozłowskii*/Lau events in the Prague Basin, Czech Republic.
36. Waškowska A.: A new agglutinated foraminifera of the genus *Bulbobaculites* from the Paleogene of Outer Carpathians (Silesian Nappe, Poland) – preliminary results.
37. Waškowska A., Golonka J.: Foraminiferal assemblages of Beloveža Formation in Klimkówka Lake area (Magura Nappe, Outer Carpathians, Poland).
